**PROGRAM OVERVIEW**

## Program Overview

The Certificate of Competency (CCT) in Emergency Medical Technology (EMT) program includes techniques of emergency care, stabilization, and immobilization of a victim's illness and injuries. Recognition and documentation of signs and symptoms of illness and injury, intervention, and evaluation of the intervention are integrated into the program. Techniques for assessment, administration of oxygen, use of specific immobilization devices, and preparation for transportation are other areas of the program.

EMT students will be challenged daily in class as they learn the crucial skills needed to perform in emergency medicine. The EMT program will take students with minimal to zero medical knowledge and in 20 weeks have them trained and prepared to assist people in their most critical time of need. EMTs are trained to handle events such as heart attacks, strokes, internal bleeding, diabetic problems, and trauma patients.

The Emergency Medical Technology (EMT) program is the first step towards a career in emergency medical services. The techniques taught in the program are in accordance with the state and national curriculum. Successful completion of this program will make students eligible to sit for the National Registry of EMTs certification examination in order to gain state certification.

## Emergency Medical Technology

Are you searching for a service-oriented career where you can save lives? Consider the Emergency Medical Technology program to take the first steps toward a rewarding career as a firefighter or licensed emergency medical technician (EMT). Upon successful completion of this program, you will be prepared for the fire academy, as well as for EMT jobs with ambulance service companies, first responder agencies, fire departments, and hospitals. You will be eligible to sit for the EMT national certification examination and the Arizona certification examination for Hazardous Materials First Responder Operation, which meets the requirements of the Arizona Center for Fire Service Excellence.

Our qualified instructors will introduce you to fire service, wellness and fitness, and hazardous materials. You will also be trained to recognize and handle a range of medical situations — from minor to life-threatening, including learning how to perform cardiopulmonary resuscitation (CPR), automatic external defibrillation, and the procedures for administering oxygen and medication. We will also teach you how to stabilize and transport trauma victims and those suffering a major medical event like a heart attack or stroke.

If you're ready to make a difference as a firefighter or EMT, start your training in the Emergency Medical Technology program today!

Students at any Maricopa Community College may need to complete courses at more than one of our colleges.

Once you register for your classes, you will need to pay your tuition. There is no single best way to pay your tuition, but knowing your options will help you create a plan that works best for you.

Take action early if you plan to apply for financial aid or need to set up a payment plan. Be sure to monitor your Maricopa student email and Student Center regularly for new payment balances, due dates, and other updates, such as financial aid awards.

Students are responsible for the total program cost, which includes tuition and fees, out-of-pocket expenses, and any additional expenses associated with this program. Each student is expected to secure sufficient financial aid or Agency funding for their tuition and fees, and/or establish a payment plan during their enrollment.

We understand that the process of paying for college involves many steps. Because tuition & fees are due before classes start, we have compiled the following list of payment methods now accepted by the College.

When dropping classes, you must officially do so during the refund period to be eligible for a refund. You can do this online using your Online Student Center or in person at your college's Admissions, Records, and Registration office.

Once you have officially dropped from your classes, and if you are eligible for a refund, you must contact Student Business Services at your college to receive your refund.

No refunds of cash are available. Refunds of credit card payments will be made only to the credit card on which the original payment was processed.

To ensure you receive your refund as quickly as possible, make sure your current address is correct, and update it if necessary in your Student Center in the Personal Information section.

## Medical Marijuana Policy

Maricopa Community Colleges prohibit the possession and use of marijuana on all campuses and in all off-campus student activities, including clinical externship and clinical learning experiences in health programs. This policy is dictated by Arizona Revised Statutes § 15-108, which prohibits any person, including a medical marijuana cardholder, from possessing or using marijuana on the campus of any public university, college, community college or post-secondary education institution. Federal legislation prohibits any institution of higher education that receives federal funding from allowing the possession and use of marijuana.

Maricopa Community Colleges receive federal funds through grants and financial aid. Maricopa Community Colleges continue to enforce current policies regarding controlled substances and any student or employee who violates university policy prohibiting the use or possession of illegal drugs on campus or in student activities - including educational externship - will be subject to disciplinary action and criminal prosecution.

Urine drug screens are required of students prior to attending healthcare clinical externship. Medical marijuana, or its metabolite, is not an accepted substance in urine drug screens and will result in a positive urine drug screen. Students with a prescription for medical marijuana would not be considered exempt from urine drug screening.

## Nondiscrimination Policy

The Maricopa County Community College District does not discriminate on the basis of race, religion, color, national origin, sex, handicap/disability, sexual orientation, age, or Vietnam era/disabled Veteran status in employment or in the application, admission, participation, access and treatment of persons in instructional or employment programs and activities.
