PROGRAM OVERVIEW

Program Overview

At GateWay, we take the most direct path to help you land your dream career. With our clock programs, you can earn a certification in your desired field in as little as six months. You will learn by doing and receive hands-on training from industry professionals.

Our knowledgeable instructors and state-of-the-art facilities help ensure you will have the skills you need to save a life, create a style, reduce other's stress, build a shelter, machine future technologies, and so much more.

Medical Billing and Coding: Physician Based

If you are detail-oriented and love organizing and categorizing, consider a career as a medical coder. Being a medical billing and coding specialist involves taking medical procedures and the descriptions of injuries and diseases and converting them into numeric or alphanumeric codes. A medical facility or practice relies on accurate coding for timely payments and proper patient treatments, especially when different practitioners are involved.

The Medical Billing and Coding physician-based program will prepare you for this vital role as a medical biller and medical coder in a physician's office, hospital, or medical treatment facility — such as a surgery center or outpatient clinic. As well as learning to bill and code accurately, you will become familiar with health information technology and compliance standards. You will also learn anatomy and physiology, pathophysiology, pharmacology, and medical terminology as they apply to medical billing and medical coding. After graduating from the program, you will be eligible to take a national certification exam for medical billing, medical coding, or both.

The need for competent medical billers and medical coders continues to grow. Take the first step toward a new and rewarding career as a coding specialist by enrolling in the Medical Billing and Coding program today.

Visit [Medical Billing and Coding | GateWay Community College](#) for more information.

Medical Marijuana Policy

Maricopa Community Colleges prohibit the possession and use of marijuana on all campuses and in all off-campus student activities, including clinical externship and clinical learning experiences in health programs. This policy is dictated by Arizona Revised Statutes § 15-108, which prohibits any person, including a medical marijuana cardholder, from possessing or using marijuana on the campus of any public university, college, community college or post-secondary education institution. Federal legislation prohibits any institution of higher education that receives federal funding from allowing the possession and use of marijuana.

Maricopa Community Colleges receive federal funds through grants and financial aid. Maricopa Community Colleges continue to enforce current policies regarding controlled substances and any student or employee who violates university policy prohibiting the use or possession of illegal drugs on campus or in student activities - including educational externship - will be subject to disciplinary action and criminal prosecution.

Urine drug screens are required of students prior to attending healthcare clinical externship. Medical marijuana, or its metabolite, is not an accepted substance in urine drug screens and will result in a positive urine drug screen. Students with a prescription for medical marijuana would not be considered exempt from urine drug screening.

Nondiscrimination Policy

The Maricopa County Community College District does not discriminate on the basis of race, religion, color, national origin, sex, handicap/disability, sexual orientation, age, or Vietnam era/disabled Veteran status in employment or in the application, admission, participation, access and treatment of persons in instructional or employment programs and activities.
