PROGRAM OVERVIEW

Clock Hour Trade & Technical Training

GateWay Community College offers specialized clock-hour trade and technical programs designed to prepare students for careers through focused, hands-on learning. Unlike traditional credit-hour programs, clock-hour programs measure progress based on the number of hours and weeks of instructional time completed, providing a direct path to certification. These programs emphasize practical training, allowing students to develop industry-specific skills from experienced professionals. In as little as six months, students can earn certifications in fields such as healthcare, cosmetology, construction, and advanced manufacturing.

With expert instructors and state-of-the-art facilities, GateWay ensures students gain the real-world experience needed to succeed. Whether your goal is to save lives, design new styles, reduce stress, construct shelters, or machine future technologies, GateWay's programs are tailored to provide the essential skills for career success. Located in the Phoenix metropolitan area, GateWay has been serving the community since 1968, committed to innovation and excellence in education.

Nail Technology

Are you looking for a career beyond traditional office roles that lets you express your creativity while building client relationships? If so, consider becoming a Nail Technician, where you'll provide expert nail care and help clients feel more confident.

Our Nail Technology program gives you essential skills in nail theory, microbiology, and nail care techniques. You'll learn to shape nails, remove cuticles and calluses, apply products, give massages, sculpt nails, and create nail art. The program also covers safety and sanitation, customer service, legal regulations, marketing, and business practices to fully prepare you for the industry.

Upon graduation, you'll be ready to take the Arizona State Board of Barbering and Cosmetology licensing exam, opening doors to careers as a freelance nail technician, salon worker, or even business owner. As a trained professional, you'll be skilled in manicures, pedicures, nail applications, and other beauty treatments, while also mastering client relations, sanitation, and business management.

Completing the required hours with a score of 80% or higher qualifies you to apply for graduation and earn your credentials. However, this alone does not guarantee a Nail Technician License in any state.
